

POSITION: Laboratory Technician
JOB TYPE: Full-time
WORK EXPERIENCE: 0-2 Years (Will Train)
EDUCATION REQUIREMENTS: High School Diploma or Equivalent

OVERVIEW:

Morell Engineering is seeking a Laboratory Technician for our office in Fayette, Alabama. This position will work directly with the Alabama Department of Transportation (ALDOT) and will be responsible for testing materials that go into the construction of roadways.

DUTIES AND RESPONSIBILITIES:

- Read and interpret specifications and/or test procedures in order to perform various tests on concrete, asphalt, soils, and base materials and determine if samples pass the minimum requirements for construction projects
- Use laboratory equipment safely to perform tests and record results
- Service laboratory equipment and clean laboratory work stations
- Communicate effectively, both written and orally, with other team members and perform duties with motivation, initiative, and a positive attitude
- Adhere to company work hours, policies, procedures, and rules governing professional staff behavior

REQUIREMENTS:

- High school diploma or equivalent
- Basic computer skills and knowledge of math and engineering principles
- Clean motor vehicle record and ability to drive light duty vehicles
- Ability to pass a drug screen and background check
- Ability to attend class and pass certification tests as required (Nuclear Safety, Asphalt Level 1, ACI Level 1, Concrete Tech, Concrete Strength, and Aggregate Tech)
- Ability to handle multiple tasks simultaneously and set priorities
- Ability to perform heavy lifting (up to 60 lbs.) and work long periods in different environments
- Regular attendance is required

Duties and responsibilities may change and one may be required to perform other duties as assigned.
